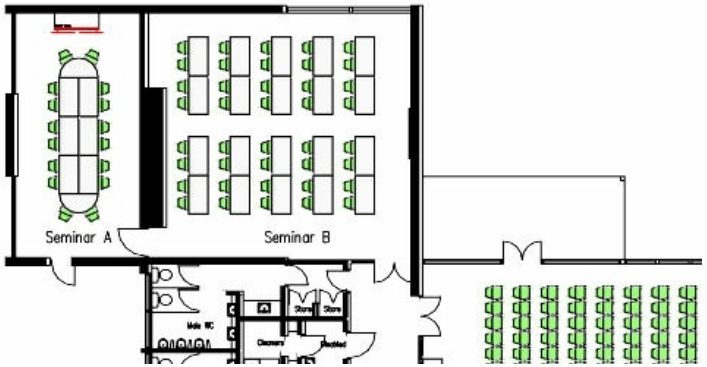
Project Management Service including:
- **Space design and planning**
- **Health & Safety consultancy**
- **Out of normal office hours work**
- **Risk and method statements**



Inspirational Interior Refurbishment.

Working in partnership with Buckinghamshire Learning Trust, COI were delighted to project manage a complete interior refurbishment at the Green Park Centre in Aston Clinton.

The Green Park Centre is accredited by the Council for Learning Outside the Classroom and offers tailored educational programmes, as well as cost-efficient day and residential packages.

The brief:
Working to the customers brief, COI were tasked in reconfiguring the existing space to house the new team and provide an innovative meeting and conference space, purpose-built offices, interactive learning classrooms, and a modern kitchen and dining solution.

To complete the project, COI partnered with a professional Health and Safety consultant to ensure building regulations and general Health and Safety guidelines were adhered too during every step of the refurbishment, from space designs through to the introduction of interior contractors.

Our clever designs helped introduce extra space by remodeling areas and removing walls to help create an open work environment that would encourage team interaction. Additionally, we provided a new external corridor which created the main entrance lobby with a through corridor leading from a seminar room into the main building.

Additional building works included the provision of:

- Fitting of new kitchen
- Relocation of fire alarm, data, and electrics
- Decorating
- Flooring
- Partitioning
- Stud Walls
- Blackout curtains
- Doors

The design and build process was an interactive process with Bucks Learning Trust taking an active part in the decision making throughout.
