Our client needed task chairs quickly, and we rose to the challenge!

When Nathan Indge from Dawsongroup plc contacted us requiring 10 new mesh back task chairs urgently, we delivered!

Dawsongroup plc is a leading provider of commercial asset services, having grown from a small truck and trailer rental offering to an expansive range of nine different market segments. The UK head office is located in Tongwell in Milton Keynes, with further offices located in Europe including Barcelona, Rotterdam, and Ireland.

The Solution:
To fulfil the requirements of the team, we selected the modern FG Claude Task Chair, with its versatile mesh back, adjustable lumbar support, and comfortable seat pad. The Claude chair is a great choice for the Dawsongroup, the mesh back offers fantastic ergonomic posture support, durability, and easy-to-clean features, whilst also providing a level of ventilation through its back which keeps the user cooler and can help to minimise muscle fatigue.

After selecting their fabric colour of choice, we were able to source and deliver the ergonomic task chairs within record time with the order being placed with ourselves on a Friday, and delivered the following Monday, which ensured the team was up and running and ready for the week ahead.

All chairs were delivered assembled and ready to use, with all associated packaging removed from the site which is all part of the hassle-free delivery service here at Combined Office Interiors.

Providing the best possible customer service and delivering on our promise to fulfil orders quickly is especially important to us and the 5-star review from our client is yet another example of our commitment to providing a convenient and trouble-free experience.

"I contacted Andy on Thursday, had a price by Friday, and chairs upholstered in the fabric choice arrived on Monday! Andy and COI seriously pulled it out of the bag for us, really impressed once again by these people, who seem to always deliver!"
Nathan Indge
